

Exphil Has Now Expanded Mechanical Capabilities Making Us a Full-Service Metrology Lab

The New Mechanical Capabilities:

- Dimensional (Gage Blocks, Threads, Pins, Rings, Angle Plates)
 - Torque (Drivers, Watches & Wrenches)
 - Mass (Weights, Scales & Balances)
- Force (Load Cells, Tension, Compression)
 - Surface Plate & Hardness Testers
 - Pressure/Vacuum Gages

Small tool repairs available
(Micrometers, Calipers, Dial Indicators, Torque Wrenches)

Quick turn-around on repairs.

If you have any questions regarding mechanical calibration please contact
Lewanna Warner at:

Phone: 1-800-539-7445 ext. 207

Email: Service@Exphil.com

George DeMott is our new Mechanical Lab Supervisor with over 20 years
experience in Calibration and Mechanical Testing/Inspection.
